

Brian Donohue

----- Associate Managing Broker -----, My Home Group Real Estate

I have had my real estate license for 30 years and have been at 9 different companies including RE/MAX for 12 years.

When I tell you out of the 9 different companies "My Home Group Real Estate" has done more for me and has given more support, more training, and more positive energy than any other company, I truly mean it. This is not a statement just because that is where I have my license; it is because of the people and the opportunities that are offered here.

Of course the first thing I will say about any company is you have to take advantage of what is offered and get involved as much as you can.

It is honestly an honor to work with a person that is as knowledgeable and humble as Brian. His help has been a huge factor in my success as a realtor, he is a great mentor. In the time that I have known Brian, he has proven to be responsible, reliable, a great leader and a man of great morals. I would recommend him to any agent as a broker and definitely to any person looking to buy or sell a home.

I have know Brian Donohue for over five years as we both worked together at performance Realty. He was always easy to reach on his phone and emails with a quick response.

When I decided to only work with past referrals, friends and relatives, I asked Brian to partner with me because real estate is constantly evolving and I needed to be knowledgeable to provide the best service for all buyers and sellers.

I believe Brian to be an ethical professional who can provide results for varying real estate job demands.

Brian has been a great help to me both before and after the formation of IM-PAC Group. He is always available to answer my questions either over the phone, email, or in person. If I leave him a message, he calls me back immediately and is a wealth of knowledge when I need a referral such as an inspector or home warranty company. He never leaves me hanging, and if he's not sure of something, he finds out the answer or directs me to someone who can.
